

URP Project Setup v 1.3

Render Pipeline Configuration & Post-Processing Reference

EmacE Art
2026 · 05 · 12
Unity URP 14.x

1 — RENDER PIPELINE

Quality Level	Pipeline Asset	Status
Very Low	New Universal Render Pipeline Asset-LowQuality	active
Low	New Universal Render Pipeline Asset-LowQuality	active
Medium	New Universal Render Pipeline Asset-MediumQuality	active
High	New Universal Render Pipeline Asset-HighQuality	default active
Very High	New Universal Render Pipeline Asset-HighQuality	skipped
Ultra	New Universal Render Pipeline Asset-HighQuality	skipped

VERY HIGH — SHADOW CONFIGURATION

Parameter	Value
Shadow Max Distance	100 m
Cascade Count	1
Depth Bias	0,00
Normal Bias	0,00
Soft Shadows	On
Color Grading Mode	LDR
LUT Size	32

2 — RENDERER FEATURES

SCREEN SPACE AMBIENT OCCLUSION (SSAO)

Renderer: New Universal Render Pipeline Asset_Renderer

Parameter	Value
Method	—
Intensity	3,00
Radius	1,00
Falloff	100
Direct Lighting	0,128
Source	Depth
Blur Quality	High
Samples	Low
Downsample	Off
After Opaque	Off

3 — POST-PROCESSING PROFILES

All profiles use Tonemapping (ACES) as base. Components: ColorAdjustments · Bloom · Vignette · WhiteBalance.

EA_PP_Profile Tonemapping ACES Contrast / Saturation -10 / -11 Post Exposure +0,24 EV Bloom i / thr / sc 1,00 / 1,00 / 0,72 Vignette i / sm 0,26 / 0,40 White Balance temp / tint 0° / 0	PP_Cold_1 Tonemapping ACES Contrast / Saturation +30 / -30 Post Exposure -0,1 EV Color Filter ☐ #D1E6FF Bloom i / thr / sc 0,15 / 1,05 / 0,55 Vignette i / sm 0,08 / 0,55 White Balance temp / tint -25° / 0
PP_Default Tonemapping ACES Contrast / Saturation +15 / -10 Bloom i / thr / sc 0,20 / 0,95 / 0,65 Vignette i / sm 0,20 / 0,40 White Balance temp / tint 0° / 0	PP_Desert Tonemapping ACES Contrast / Saturation +35 / +5 Post Exposure +0,15 EV Color Filter ☐ #FFE0AD Bloom i / thr / sc 0,65 / 0,72 / 0,85 Vignette i / sm 0,20 / 0,48 White Balance temp / tint +28° / -5
PP_Sunny Tonemapping ACES Contrast / Saturation +25 / +12 Post Exposure +0,1 EV Color Filter ☐ #FFF5D6 Bloom i / thr / sc 0,55 / 0,78 / 0,75 Vignette i / sm 0,15 / 0,35 White Balance temp / tint +18° / 0	

Currently connected to scene Global Volume: **PP_Default**

4 — MATERIALS & TERRAIN

Asset type	Before	After
Scene materials	Standard (Built-in)	Universal Render Pipeline / Lit
Terrain material	Default-Terrain-Diffuse	Universal Render Pipeline / Terrain / Lit
Terrain material asset	—	{TerrainName}_URP_Terrain.mat — saved alongside TerrainData

Texture maps (Albedo, Normal, Metallic, Occlusion) remapped by Unity's built-in converter. Verify visually in Scene and Game view.

5 — ASSET INTEGRITY

All pipeline asset .meta files were assigned fresh GUIDs. References in .prefab .mat .unity .asset .controller .anim files across the project were updated to match. The pipeline folder is safe for redistribution and cross-project import without GUID collisions.
